Re: Advanced Placement Testing, May 5 -16, 2008

DO NOT LOSE THIS INFORMATION! Please check below for each test you are taking and confirm the location and room number, so you know where and when to arrive. Several tests have multiple rooms. Please review all of the information here. If there are any discrepancies, please come immediately to room 129 and check with Mrs. Kaufman regarding your registration.

*If you decide **not** to take an AP exam, please come see us prior to the exam date. If no one is in room 129, please slide a note below the door or ask your teacher to email Mrs. Kruty.*

Please note the varying start time and location for each of your tests. **You are responsible for your own transportation to and from the tests.**

Remember to bring your ID, pencils, pens with black or dark blue ink and, if approved for your test, a calculator. Bring your Social Security Number with you for identification purposes. (Physics students should also bring a straightedge.) We also suggest you wear a watch without any alarm features. It is important that the identifying information you provide each year is accurate and complete. This year you will be instructed to use your **full legal name** on the answer sheet and all exam materials. This is intended to eliminate discrepancies from year to year. If you did not use your legal name on previous AP Exam records, you should do so now. The AP Program will reconcile your records.

Please review the information that follows the schedule below.
